GEORGE BAAKLINI

JUNIOR WEB DEVELOPER

george2001@live.ca (438)-391-4742 Saint-Hubert, Quebec

https://www.linkedin.com/in/georgebaaklini-dev portfolio: https://georgebaaklini.com

Recent Full Stack Web Development graduate. I excel in creating user-centric web solutions, utilizing my strong interpersonal skills. I have a proven track record in efficient coding and effective team collaboration. I'm an enthusiastic, approachable developer keen on meeting challenges head-on. Looking forward to contributing my skills to a dynamic organization.

SKILLS

- Proficient in Full Stack Web Development: HTML, CSS, JavaScript, React, Node.js, Express, MongoDB.
- Excellent interpersonal and communication skills.
- Demonstrated ability to effectively collaborate in diverse teams.

EDUCATION

FULL STACK WEB DEVELOPMENT BOOTCAMP

Concordia University | Jan 2023 - April 2023

Successfully completed an intensive 3-month Full Stack Web Developer Bootcamp, focused on mastering essential web development technologies and best practices.

EXPERIENCE

CREDIT CARD SPECIALIST

TD Bank | Montreal | Feb 2022 - Jan 2023

Played a key role in addressing customer inquiries and concerns over the phone. My primary focus was on delivering exceptional service while helping customers manage their credit card accounts effectively.

SALES ASSOCIATE

Staples | Brossard | Dec 2019 - May 2021

Provided exceptional customer service and leveraged my product knowledge to assist customers in making informed purchasing decisions. Responsible for maintaining a clean and organized store environment, ensuring that products were well-stocked and easily accessible for customers.

LANGUAGES

- English (Native or bilingual proficiency)
- French (Native or bilingual proficiency)
- Arabic (Limited working proficiency)

PROJECTS

PERFECT ELEVEN (FINAL PROJECT)

Web application that I created, enabling users to craft their ideal soccer teams. It allows users to search from a broad database of professional players, form their teams according to specific criteria, and submit their final line-ups. The platform also includes a feature for users to view all submitted teams and their respective creators. Technologies: React.js, Express.js, Node.js, MongoDB. APIs: AuthO, SoccersAPI
